

SUPPLY AND INSTALATION OF SSMPs WITH REA ZAMBIA

PROJECT DETAILS

Project Name: Supply and installation of sustainable solar market packages for eastern, north western and Muchinga Province among others.

Customer: Rural Electrification Authority, Zambia

Contract Reference No.: **REA/IAES/ORD/02/13**

Contract Amount: **UGX 665,074.70**

Start Date: December 2014

Completion Date: December 2017

Background: TASS was contracted by the Rural Electrification Authority in order to supply solar market packages for the rural community in a number of provinces in Zambia.

TASS Role: TASS was the main contractor for this project, we procured and installed all the solar components on all the sites. Our team of engineers trained the local technicians in Zambia.

Overall the project was handed over successfully to the client.

Key Facts:

- There were 3 lots of districts comprising of Lundazi, Chama, Mwinilunga
- In total there were 147 facilities including school buildings, school staff houses, Chief's Palace, Courts, Rural health facilities and their staff centers that had solar systems installed
- Technology Used:
 - Solar Modules SL 100TU-24P
 - Batteries 100AH
 - AC MDB
 - DC MCB
 - Lamp holders

- Over 326,223 people in total from all three districts were able to benefit from the Rural Electrification Program.
